### **DETAILED ACTION**

1. The finality of the Office action mailed 12/1/03 is hereby withdrawn in view of the claim objections set forth below.

#### ***Response to Amendment***

2. The reply filed on 3/1/04 has been entered. It is noted that the claim identifiers for claims 8 and 16 in the amendment are incorrect, as both claims 8 and 16 were previously amended. Further, claim 8 has been slightly changed, and is objected to below. In addition, several other claim objections have been made.

#### ***Drawings***

3. The drawings are objected to because in Figure 1, transmitter 100 is shown to include a transceiver 115, and similarly, receiver 105 is shown to comprise a transceiver 115. This is contrary with the general interpretation of those terms, as a transceiver comprises a transmitter and a receiver, and not vice versa. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

#### ***Specification***

4. The disclosure is objected to because of the following informalities:

With respect to the explanation of Fig. 1 in page 6, the description of the transmitter 100 and receiver 105 as comprising a transceiver is contrary with the general interpretation of those terms, as a transceiver comprises a transmitter and a receiver, and not vice versa.

Appropriate correction is required.

*Claim Objections*

5. Claims 1-12 and 16-19 are objected to because of the following informalities:
- a. In claim 1, lines 3-4 and lines 7-8, it is suggested that “at least one link adaptation modes” be amended with --at least two link adaptation modes--, as link adaptation can only be performed when there is more than one adaptation mode.
  - b. Claim 2, line 2, “at least one link adaptation modes” should be --at least two link adaptation modes--.
  - c. Claim 2, line 3, “steps” should be --step--.
  - d. Claim 3, line 5, “at least one link adaptation modes” should be --at least two link adaptation modes--.
  - e. Claim 6, lines 1-2, “at least one link adaptation modes” should be --at least two link adaptation modes--, and “the Enhanced Data Rates for OSM” should be --Enhanced Data Rates for GSM--.
  - f. Claim 8, line 1, “method” should be --A method--.
  - g. In claim 11, a period should be inserted at the end of the claim.
  - h. Claim 12, lines 4-5, “at least one link adaptation modes” should be --at least two link adaptation modes--.
  - i. In claims 16 and 19, the claimed receiver and transmitter is recited to include a transceiver, which is contrary with the general interpretation of those terms, as a transceiver comprises a transmitter and a receiver, and not vice versa.
  - j. Claim 16, line 3, “further” should be deleted.
  - k. Claim 16, line 7, “further” should be deleted.

- l. Claim 16, lines 17-18, it is suggested that step (c) indicate that the link adaptation is being performed on the link between the transmitter and the current receiver.
  - m. Claim 17, line 4, "at least one link adaptation modes" should be --at least two link adaptation modes--.
  - n. Claim 18, steps (b), (c) and (d) should be (a), (b) and (c), respectively.
  - o. Claim 19, line 3, "further" should be deleted.
  - p. Claim 19, line 7, "further" should be deleted.
- Appropriate correction is required.

***Allowable Subject Matter***

- 6. Claims 1-12 and 16-19 would be allowable if rewritten to overcome the objections set forth in this Office action.

***Conclusion***

- 7. This application is in condition for allowance except for the formal matters indicated above.
